Bliss

MARAZZI

Bliss

The new Bliss white-body wall covering provides an updated interpretation of the decorative aesthetic of the antique majolica tiles used for building the stoves typical of the Ladin tradition in the Italian Alps. It offers two neutral shades – warm Cream and cold Ice – and three vibrant colours – Ocean, Forest and Brick – in the 30x90 size, on a slightly uneven, very glossy surface. The range is completed by the 3D Fingers structure, a very deep relief pattern with hollows in the glaze that create shadow zones, and the 3D Square structure, comprising square shapes set one inside the other in three different levels of depth. The natural fall of the glaze emphasises the chiaroscuro effects generated by the different planes with a retro look. The Leafy decor has a nature-inspired motif and a relief structure given depth by the interplay of the light and dark shades that define the ribs and outlines of the soft leaves. It is available in both a warm version, for matching with the Cream plain tile, and a cold variant, for the Ice and Ocean colours. Bliss creates a new way of bringing character to the walls and other vertical surfaces of bathrooms, kitchens and restaurants, through the power of colour.

Legenda

Destinazioni d'uso

- D**

Tiles suitable only for residential bathrooms and bedrooms; any type of abrasion must be avoided.
- E**

Tiles suitable for any room of a house except for entrance areas and kitchens. Low stress abrasive wear.
- F**

Tiles suitable for any room of a house without direct access from the outside or access not protected by doormats. Average stress abrasive wear.
- G**

Materials suitable for rooms subject to medium-heavy abrasion, such as detached houses and light-traffic commercial buildings.
- H**

Materials suitable for situations of relatively hard abrasion in environments without protection against scratching, both public and private.

Variazioni cromatiche

- V0**

Monochromatic - V0: tiles of the same shade are very uniform, in just one colour
- V1**

Uniform appearance - V1: uniform colour with only minimal differences between tiles in the same production run
- V2**

Slight variation - V2: clearly distinguishable differences in texture and pattern within the same production run
- V3**

Moderate variation - V3: significant variation in texture, pattern and colour from tile to tile within the same production run. The colour range should be viewed before selecting the material
- V4**

Ubstantial/random variation - V4: random differences from tile to tile. One tile may have totally different texture and colour from another. The colour range should be viewed before selecting the material
