

THIN WALL COVERINGS

Cementum Wall

MARAZZI

Cementum Wall

Four natural shades - Ash, Sand, Nickel and Lead - in 40x120 size with slimline thickness, together with the strongly tactile Contact 3D structure, available in all colours, and two decors, geometrical Urban and delicate, floral Flowery, both with glimmering surfaces thanks to the application of glossy and matt vitreous grits using the ground-breaking Touch technology. A very versatile range of wall coverings, in perfect harmony with the Cementum Floor collection and also ideal in combination with other looks from the Marazzi range. Intended for bathrooms, it can also bring great personality to whole walls or recesses in other contexts.

Legenda

Destinazioni d'uso	
D	Tiles suitable only for residential bathrooms and bedrooms; any type of abrasion must be avoided.
E	Tiles suitable for any room of a house except for entrance areas and kitchens. Low stress abrasive wear.
F	Tiles suitable for any room of a house without direct access from the outside or access not protected by doormats. Average stress abrasive wear.
G	Materials suitable for rooms subject to medium-heavy abrasion, such as detached houses and light-traffic commercial buildings.
H	Materials suitable for situations of relatively hard abrasion in environments without protection against scratching, both public and private.

Variazioni cromatiche	
V0	Monochromatic - V0: tiles of the same shade are very uniform, in just one colour
V1	Uniform appearance - V1: uniform colour with only minimal differences between tiles in the same production run
V2	Slight variation - V2: clearly distinguishable differences in texture and pattern within the same production run
V3	Moderate variation - V3: significant variation in texture, pattern and colour from tile to tile within the same production run. The colour range should be viewed before selecting the material
V4	Ubstantial/random variation - V4: random differences from tile to tile. One tile may have totally different texture and colour from another. The colour range should be viewed before selecting the material
