EMOZIONI IN SUPERFICIE

ERA

Nel percorso di esplorazione delle pietre naturali, ABK apre con il progetto ERA un nuovo capitolo dedicato al tema degli agglomerati. ERA richiama i periodi geologici che hanno forgiato i materiali più compositi, nati da un imprevedibile quanto affascinante susseguirsi di stratificazioni.

ABK opens a new chapter in its exploration of natural stone with the ERA collection dedicated to the world of agglomerates. ERA evokes the geological periods that forged the most complex composite materials through an unpredictable and fascinating sequence of stratifications.

ABK

EMOZIONI IN SUPERFICIE

ERA

Le varietà di pietre con ciottoli, come i Ceppi della Lombardia e le lastre di Ambrosia della Grecia settentrionale, hanno ispirato l'estetica di ERA mentre la struttura della collezione prevede due diverse tipologie di grafica, due sensazioni distinte, ma complementari, della stessa materia. Partendo dallo stesso blocco lapideo, DELICATE nasce dal taglio in falda e presenta una texture più omogenea e discreta, BLOOMING nasce dal taglio in contro falda e sta ad indicare la versione più "fiorita" del prodotto, nella quale le inclusioni sono più ampie ed evidenti.
A queste si aggiunge GROOVE, in finitura naturale leggermente strutturata per ricreare in parete l'effetto scultoreo di una riga sbrecciata.

Inspired by stones with a pebble-like structure, such as Ceppo from Lombardy and Ambrosia slabs from northern Greece, the collection offers two different graphic styles, two distinct yet complementary interpretations of the same material.
Exploring the dual nature of a single block of stone, DELICATE displays the homogeneous and subtle texture typical of a vein cut, whereas BLOOMING features a more "flowery" cross-cut effect with larger and more prominent inclusions.
These surfaces are complemented by GROOVE, a lightly textured natural finish that recreates the sculptural effect of a chiselled line on the wall.
